— *Kim Wolozyn Marketing & Education Liaison Nu Image Surgical & Dental Implant Center*

Tami is by far one of the most engaging and involved keynote speakers I have ever had the pleasure of working with. As an event producer, I work with many different speakers and different talent on a regular basis, but Tami stood out immediately when she demonstrated her sincere want to know more about the technical aspects and processes involved in events in order for her to better work with technical teams. Her self proclaimed "wannabe techie" status was bumped to "techie enthusiast" that day! Her flexibility and understanding made it instantly easy to work with her, and her kind and warm personality shone through to lift the mood for me and my technical team. Her expertise in her field and the levity she brings to her presentation creates an experience for audiences that is undeniably fun and informative. Key takeaways are clear and solid and presented in a way that no one could soon forget. All in all, Tami's presence on stage and off leaves a lasting impression on anyone who is lucky enough to experience her. It would be my sincere pleasure to get to work with Tami again and I wholeheartedly recommend her to anyone looking to engage and delight their audience.
