About Jim Bouchard

By his own admission, Jim Bouchard should have been dead or in jail - many times over.

Jim does a great job bringing it all together to formulate practical steps I can use to take better control of my own leadership abilities. Jim is a wonderful speaker and does a great job breaking down barriers and making everyone in the room feel comfortable with him. His backstory and his passion for the martial arts really takes on a life of its own. He provides a great example of leadership that I think we can all learn from.

— C.M., 2016 CHAIR

Jim expertly provided a 1/2 day seminar to our senior and middle leadership teams tailored specifically to our needs and the results shown in our pre event survey. His humor, real world examples, and easy conversational style engaged the entire group and helped his subject content hit home and stick. The entire process from inquiry to booking to post event follow up and debrief was incredibly easy and very user friendly. I highly recommend Jim to bring his coaching and teaching to your organization!

— C.P., HR DIRECTOR

Jim Bouchard was wonderfully motivating in his presentation. He very straightforwardly shared his "8 Strategies for Aspiring Leaders" with our Entrepreneurship and Innovation students at Thomas College. The students were intently focused on Jim. He captured the students' attention with his detailed account of his life and business experiences. Jim has the unique ability to speak directly to his audience, not lecture to them. Jim involved the students in his presentation by asking thought provoking questions and engaging the students in the leadership exercises that challenged and triggered action. Nothing is off limits with Jim. He selflessly shares his own personal experiences, which provides an all access forum for his participants to feel free to share their own thoughts without fear being judged, providing honest talk and honest results. I strongly recommend Jim Bouchard as speaker. He will inspire and motivate anyone and everyone. Hearing Jim's simplistic yet realistic breakdown of leadership strategies are helpful for both student and seasoned professional.

— *J.S., AVP, MARKETING*

Jim Bouchard provided our company leaders an inspirational message backed by fact in real world terms. He clearly did his homework in learning our organization and wove his message into our company fabric. Jim not only mentioned some of our leaders by name but tied his theme into specific behaviors he learned from his interviews with them. This allowed for buy in from the group and validated Jim's message even more. Achieving great results and having success is only as good as you can keep it. It will be our challenge to stay on top. Thank you!

— *M.R., VICE PRESIDENT OF STRATEGIC RESOURCES*

The 2017 CCCU convention held in Cuba, had as one of its presenters, a gentleman that brought forward an interesting perspective in managing (or for a better word- "empowering") our key resource - our staff. Jim Bouchard presented "Eight Strategies for Effective Leaders". Through his unique blend of quoting real world examples, his undeniable sense of humour, and his interactive sessions with his audience, his talk was both riveting and relevant. Debates and discussions were encouraged, making the session even more meaningful, lively and memorable. His presentation was truly an amazing experience.

— *O.G., IT MANAGER, MCCU JAMAICA*

— *S.B., DIRECTOR OF MARKETING AND EVENTS*

I have worked with Jim on multiple occasions during the past several years. In every circumstance, he has delivered above and beyond what was expected. I once heard it said, "You go to an event to get motivated, but you learn a new process to make yourself better." Jim's sessions are a perfect blend of both - he's not going to solve all your problems for you or your organization, but gives you the tools to start and continue the process yourself! Whether it be customer service, leadership, or a personalized program, Jim's candid, fresh, and totally honest "Think Like A Black Belt" brand will deliver the punch you're looking for.
